Many people pray for CMJ and its ministry world wide. However, as we gain new supporters and send out detailed prayer information some people are confused about who they are praying for and where they work.

This publication, which should be used in conjunction with Prayer Focus and the Prayer Bulletin, is designed to help you to pray more effectively. Where possible, we have included photographs.

With any large organisation, people change and information can become out of date. We will endeavour to keep you updated but cannot guarantee that all the information included in this publication is 100% correct.

For those of you who prefer, we have arranged the centres and people into seven groups and these could be the focus of daily prayer.

CMJ is entirely dependent on God and on the prayers of the saints. Thank you for standing with us in prayer.
